

Stinky Stuff Help Guide

Stinky Stuff

Stinky Stuff should always be combined with either Stinky Stuff Carrier Oil to create a massage rub, or Stinky Stuff Shampoo Base to create a shampoo wash. Stinky Stuff needs to be applied once per day.

To use as a massage rub: Combine equal amounts of Stinky Stuff with Stinky Stuff Carrier Oil. If your animal is sensitive or you are applying to sensitive areas combine 1 part Stinky Stuff with 10 parts carrier oil and gradually increase to equal amounts.

Thoroughly massage a light coverage into the skin, ensuring that it is well absorbed. Less is more with Stinky Stuff, and there should be no product build up on the skin.

To use as a shampoo wash: Combine Stinky Stuff with an equal amount of Stinky Stuff Shampoo Base. Thoroughly soak your pet (or just the specific area) and massage the shampoo mixture into the skin. Leave for 10-15 minutes and then rinse thoroughly. We recommend using Stinky Stuff as a shampoo 1-2 times per week.

To use as a fly repellent: Combine 5ml Stinky Stuff with 5ml Stinky Stuff Shampoo Base and add 0.5 litres of luke warm water. Spray this solution all over. Apply first thing in the morning, and throughout the day as required to keep the flies away.

Important: Stinky Stuff should be mixed fresh before each use, and used within 12 hours. Never pre-mix.

Do not use on breeding or pregnant animals.

Ingredients: Azadirachta Indica, Cold Pressed Nigella Sativa, Cold Pressed Cocos Nucifera.

Always patch test before use.

Non Stinky

Non Stinky should be used twice a day.

To use as a massage rub: Apply a light coverage of Non-Stinky Stuff directly to the area and massage thoroughly ensuring it is absorbed into your pets' skin.

To use as a shampoo: Combine Non-Stinky Stuff with an equal amount of Stinky Stuff Shampoo Base. Soak your pets coat (or just the specific area), and massage well into the skin. Leave on for 10-15 minutes, then rinse thoroughly. We recommend using a shampoo wash twice a week.

Always mix a fresh batch before each use, and use within 12 hours.

To use as a feed supplement: For large animals (eg. Horses and cattle) add 20ml to feed once a day. For medium sized animals (eg. Dogs) add 5ml to feed once a day. For small animals (eg. Cats and rabbits) add 1-2ml to feed once a day.

Ingredients: cold pressed Nigella Sativa, virgin cold pressed Cocos Nucifera, cold pressed Cucurbita pepo L., cold pressed Helianthus Annuus.

Always patch test before use.

Ear Stuff

Ear Stuff soothing ear drops contain naturally active ingredients specifically formulated to soothe the irritated inner ear.

The drops are naturally anti-fungal, anti-bacterial and anti-parasitic to help soothe & relieve irritation in the ears, eliminate mites and parasites, soften wax build up and remove dirt.

SHAKE WELL BEFORE USE

Gently pull the flap of the ear up and slightly back. Apply the 2-3 drops into the ear and gently rub the base of the ear against the head in a circular motion. Apply 1-2 times per day as required.

Please ensure you do not squirt the product into the ears, all that is required is a couple of tiny drops.

To use as a preventative remedy, use 1-2 drops around the opening to the ear 2-3 times per week. As with any product, always carry out a patch test.

Ingredients: Cold pressed *Nigella sativa* (Black Seed Oil), *Allium sativum* (Garlic oil), virgin cold pressed *Olea europaea* (Olive Oil).

Always patch test before use.

Paw Stuff

Paw Stuff is a 100% natural paw protection balm, made with the highest quality naturally active ingredients.

Paw Stuff provides reliable protection against wet and muddy conditions, snow and ice, road salt and grit in winter – and against grass, pollen, mites etc in summer.

- Natural protection from external factors
- Prevents cracked, dry, irritated paws and pads

Thoroughly massage a light coverage into the paws and pads, ensuring that it is well absorbed. Less is more with Paw Stuff and there should be no product build up on the skin. Apply to paw pads for protection before walks.

Ingredients: Cold pressed *Nigella Sativa* (Black Seed Oil), cold pressed *Brassica napus* (Rape Seed Oil), cold pressed *Camelina sativa* (Camelina Oil), components from the *Azadirachta Indica* Plant (Neem Plant), *Lavandula* (Lavender Oil) & *Melaleuca* (Tea Tree Oil).

Always patch test before use.

Mud Stuff

Thoroughly massage a light coverage into the skin, ensuring that it is well absorbed. Less is more with Mud Stuff, and there should be no product build up on the skin.

For best results use daily to soothe the skin & then use 2-3 times per week to protect the skin exposed to wet & muddy conditions. Please ensure you leave 24 hours between applications.

For sensitive animals & for use on sensitive areas (such as the face), we would recommend using the milder formula, Mud Stuff Sensitive.

Do not use on breeding or pregnant animals.

Ingredients: Cold Pressed Nigella Sativa, Azardirachta Indica, cold pressed Brassica napus, cold pressed Camelina sativa, Lavandula & Melaleuca.

Always patch test before use.

Mud Stuff Sensitive

Thoroughly massage a light coverage into the skin, ensuring that it is well absorbed. Less is more with Mud Stuff Sensitive and there should be no product build up on the skin.

For best results use daily to soothe irritated skin & then use 2-3 times per week to protect the skin exposed to wet & muddy conditions. Please ensure you leave 24 hours between applications.

Do not use on breeding or pregnant animals.

Ingredients: Cold pressed Brassica napus, cold pressed Camelina sativa, cold pressed Nigella Sativa, Azardirachta Indica, Lavandula & Melaleuca.

Always patch test before use.
